

Laundry Machine Capacity. How much laundry makes a "full load" depends on the size, or capacity, of your washing machine. Medium-capacity top-loading washing machines can usually tolerate **7–8 pounds**.

## Load-Size Recommendations

### Medium Loads

Fill the washer drum up to about  $\frac{1}{2}$  full.

## Load-Size Recommendations

### Medium Load

To give you an idea as to how much dirty laundry weighs, here are some guidelines:

Type Of Laundry	What It Weighs
XL T-shirt	.5 pounds
Medium Blue Jeans	1.6 pounds
Medium Sweatshirt	.9 pounds
One Full-Size Bed Sheet	1.3 pounds
One Large Bath Towel	1.6 pounds

## Load-Size Recommendations

Medium Load

## Load-Size Recommendations

6 lbs
