

- Hey everyone, I'm Gentry and I'm here to share part of Choices 2020 vision for employees.
- Did you know that all full and part time employees scheduled 20 hours a week or more can get immediate medical advice without even leaving home? That's rite you and everyone living in your household get access to Tel-A-Doc for free?
- What is Tell-A-Doc?
- It's a service that you can call, and when you do, you'll speak to a doctor or nurse practitioner. Just tell them your symptoms and you'll get advice on what you should do. This could save you a trip to the doctor and did I mention it is FREE? That's rite the call is free. No co-pay.
- If you need to see a doctor, they will tell you and even help find an urgent care or doctor's office. Often, they can tell you how to feel better and, **in many cases, they can even prescribe and call in prescriptions.** That means no driving to a doctor's office and no sitting in a waiting room.
- Tell-A-Doc is just one of the ways Choices cares for employees.
- Check back next week to hear more about our 2020 vision.

➤ Oh! Happy New Years!
