

Bonus Basics:

- Any employee reporting HPC/Day Hab hours between the dates of April 12th and June 6th will get a BONUS of \$1 per approved (HPC/Day Hab) hour.
- The paycheck on May 6th will capture the hours already worked during the above dates.
- The bonus payment on May 6th will be the biggest because it captures the past work.
- Future bonus payments will be paid on regular pay dates.

For homes who have already been in quarantine a \$2.50 bonus will be added instead of the \$1 on the May 6th paycheck.

- This applies only to those homes that have already been in quarantine and only for the days and hours the employee worked in that setting.
- This will be retro to the period the home was quarantined even if outside of the above dates.

Going forward the bonus is:

- \$2.50 an hour when working in a quarantine home where Covid is probable but not yet confirmed.
- If Covid is confirmed the bonus is \$5 an hour retro to the first day of quarantine. This bonus is paid until the home comes off quarantine.
- These rates are instead of the \$1 bonus.

Thanks again for all you do and please stay safe!
